Company Profile

Dewise Drink Solutions, is a consulting and trading firm specializing in providing comprehensive beverage solutions. Our mission is to guide clients through every stage of beverage creation, from initial concept development to the final bottled product. With a strong foundation in the beverage industry and a commitment to innovation, quality, and sustainability, we deliver tailored solutions that meet the unique needs of our clients.

Core Values

- **Innovation**: We thrive on creating unique and market-leading beverage concepts.
- **Quality**: Our meticulous attention to detail ensures the highest standards in every project.
- **Sustainability**: We prioritize eco-friendly practices in product development and packaging.
- **Client Satisfaction**: Our success is measured by the success of our clients.

Services Offered

Concept Development
At Dewise Drink Solutions, we transform ideas into market-ready products. Our team collaborates with clients to develop innovative beverage concepts that resonate with target audiences. From flavor profiles to branding, we craft concepts that stand out in a competitive market.

Feasibility Studies
We provide comprehensive feasibility studies to evaluate the viability of beverage projects. Our studies include market research, cost analysis, and risk assessment, ensuring informed decision-making and strategic planning.

Recipe Development
Our expertise in recipe development ensures that every beverage we create is not only delicious but also scalable for commercial production. We work closely with clients to refine flavours, ingredients, and processes to meet specific goals and regulatory requirements.

Commercial Production
Dewise Drink Solutions assists clients in scaling up production, from small batches to large-scale manufacturing. We ensure consistency in quality and compliance with industry standards, helping clients navigate the complexities of commercial production.

Consulting
We offer expert consulting services for setting up wineries, distilleries, and beverage manufacturing units. Our team provides guidance on everything from facility design to process optimization, ensuring successful project execution.

Training on Wine-Making Techniques
Our training programs are designed to equip participants with the knowledge and skills needed to produce high-quality wines. From home wine-makers to commercial producers, we provide hands-on training on wine-making techniques, including fermentation, aging, and

bottling processes. Our training sessions are tailored to meet the needs of different audiences, ensuring practical and actionable learning outcomes.

Projects and Case Studies

Bear - Strong Cider Brand
Dewise Drink Solutions played a pivotal role in developing Bear, a unique cider brand with a beer-like taste and an extra-strong 15% alcohol content. Bear is crafted using apples, honey, and natural flavours, offering a bold alternative to traditional beer.

Majesty - Everyday Drinking Red Wine
Majesty is an affordable red wine created for everyday enjoyment. Dewise Drink Solutions oversaw the recipe development and market positioning, ensuring that Majesty delivers a high-quality wine experience at a competitive price point.

Non-Alcoholic Beverage Line
We are currently working on a project to develop a non-alcoholic beverage line for the USA market, featuring three product offerings: plain still water, still water with high pH infused with cucumber and mint, and still water with turmeric and honey. Dewise Drink Solutions is responsible for sourcing ingredients, developing recipes, and overseeing production.

Cider Tea Promotional Campaign
In Himachal Pradesh, we launched a successful promotional campaign for Cider Tea, offering retailers a Raksha Bandhan special that included discounts and gifts. This campaign boosted sales and brand recognition, demonstrating our strategic marketing capabilities.

Meghalaya Farmers Empowerment Commission
Dewise Drink Solutions has been actively involved with the Meghalaya Farmers Empowerment Commission, where we provide training and technical advisory services for winery projects across the region. Our work includes transitioning local communities, particularly housewives from self-help groups, from home wine-making to commercial production. We have successfully trained 240 participants in making wine from various local ingredients such as honey, pear, peach, plum, wild apple, Sohiong, rice etc. Our efforts have led to the creation of quality products, with Sohiong wine being a standout success. This collaboration aims to empower local farmers by enabling them to enter the commercial wine market, thus improving their livelihoods and contributing to the region's economic growth.

Directorate of Industries and Commerce - Sikkim
Dewise Drink Solutions has been actively involved with the Directorate of Industries and Commerce, where we provide training and technical advisory services for winery projects across the region. Our work includes transitioning local communities, particularly housewives from self-help groups, from home wine-making to commercial production. We have successfully trained 50 participants in making wine from various local ingredients such as honey, pear, peach, plum, rice etc. This collaboration aims to empower local farmers by enabling them to enter the commercial wine market, thus improving their livelihoods and contributing to the region's economic growth.

West Bengals Leading Milk Processors - Whey Vodka
At Dewise Drink Solutions, we have to collaborated with West Bengals Leading Milk Processors for their Distillery in Kolkata, West Bengal, to develop a unique range of craft and commercial spirits. Our involvement spans from product development, including Whey Vodka and Mahua Spirit in the craft segment, to premium and mid-range Whisky, Vodka, and Gin for the commercial market. We are providing end-to-end solutions, covering everything from factory layout and equipment selection to production process optimization and ongoing support, ensuring their Distillery is positioned to deliver exceptional products to both local and international markets.

Punjab Agro - Kinnow Gin
At Dewise Drink Solutions, we had the opportunity to collaborate with Punjab Agro to craft a distinct gin made from locally sourced Kinnow oranges. This project showcased our ability to leverage regional ingredients to create a spirit with a unique citrus-forward flavour profile that embodies the freshness and vibrancy of Kinnow oranges. Our team managed the entire process from recipe formulation to production, ensuring a high-quality product that highlights the agricultural richness of Punjab while delivering a premium gin that stands out in the market.

India Largest Brandy Manufacturer
At Dewise Drink Solutions, we are collaborating with India's largest brandy manufacturer to elevate their product offerings. In addition to refining their classic brandy, we are helping them innovate with new flavours, including fruit brandy and honey brandy inspired by traditional Brandy Mel. Our expertise in product development ensures that these new variants maintain the richness and quality of classic brandy while introducing bold, fresh flavours to appeal to modern consumers. Through this partnership, we are contributing to both the evolution of their iconic brand and the expansion of their portfolio into exciting new markets.

Team

Nagesh Pai
Founder of Dewise Drink Solutions, Nagesh Pai brings a wealth of experience in the beverage industry. With a Master of Science in Mechanical Engineering from the New Jersey Institute of Technology and extensive experience in setting up fruit wineries, Nagesh has a proven track record of launching successful beverage brands.
